2020 11th International Conference on Chemical Engineering and Applications (CCEA 2020), will be held in Seoul National University, Seoul, South Korea during May 8-10, 2020.

Chemical engineering is a branch of engineering that applies physical sciences (physics and chemistry), life sciences (microbiology and biochemistry), together with applied mathematics and economics to produce, transform, transport, and properly use chemicals, materials and energy. A chemical engineer designs large-scale processes that convert chemicals, raw materials, living cells, microorganisms and energy into useful forms and products.

## Speakers

Prof. Kwang Leong Choy  
University College London, UK

Prof. Sung-Hoon Ahn  
Seoul National University, South Korea

Prof. Han-Yong Jeon  
Inha University, South Korea

## Publication

Accepted and registered papers will be published into most suitable International Journal according to paper topic, which is indexed by Chemical Abstracts Services (CAS), Ulrich's Periodicals Directory, CABI, Electronic Journals Library, Google Scholar, ProQuest, and Crossref.
