

2019 10th International Conference on Chemical Engineering and Applications (CCEA 2019)
Beihang University, China
May 29-31, 2019

Conference Introduction

2019 10th International Conference on Chemical Engineering and Applications (CCEA 2019: <http://www.iccea.net/>) will be held in Beihang University, China during May 29-31, 2019.

CCEA 2019 is sponsored by Hong Kong Chemical, Biological & Environmental Engineering Society (HKCBEEES). It brings together innovative academics and industrial experts in the field of Chemical Engineering and Applications to a common forum. The primary goal of the conference is to promote research and developmental activities in Chemical Engineering and Applications. Another goal is to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working in

Hong Kong and abroad. The conference will be held every year to make it an ideal platform for people to share views and experiences in Chemical Engineering and Applications and related areas.

Good News

1. Famous professors as Speakers

Prof. Yuegang Zuo, University of Massachusetts Dartmouth, USA;

Prof. Yu “Frank” Yang, East Carolina University, USA;

Assoc. Prof. Yiwei Deng, University of Michigan – Dearborn, USA;

Assoc. Prof. Chi-wai KAN, The Hong Kong Polytechnic University, Hong Kong.

2. Publication

International Journal of Chemical Engineering and Applications (IJCEA ISSN: 2010-0221) which will be indexed by Chemical Abstracts Services (CAS), ProQuest, and Crossref.

3. Academic Visit

There will be a one-day academic visit in Beihang University and Beijing on May 31, 2019.

Important Dates

Important Dates

Paper Submission	before January 15, 2019
Notification of Acceptance	on February 05, 2019
Registration	before February 25, 2019
Conference Dates	May 29-30, 2019
Academic Visit	May 31, 2019

Call for Papers

Topics of interest for submission include, but are not limited to: Environmental engineering and sustainable development, Product innovation, development and economics, Process intensification, New materials & structured products, Green organic synthesis routes, Environmental engineering & management, Chemical engineering fundamentals, Chemical engineering educational challenges and development, Chemical engineering equipment design and process design, Catalysis & reaction engineering, Multifase flows, Transport phenomena in porous/granular media, Distillation, absorption and extraction, Process system, instrumentation and control, Product design & innovation, Controlled release of the active ingredient, Food engineering, Mathematical modeling in chemical engineering, Macromolecular Science and Engineering, Advanced materials processing, Theoretical and Process Safety Management, Supply chain management & business decision support, Economics and Business Management. (For more information, please visit <http://www.iccea.net/cfp.htm>)

Submission Methods

1. Online: Electronic Submission System
<http://confsys.iconf.org/submission/ccea2019>
2. Conference Email Address: ccea@cbees.org
